

Hey Sister,

I think you are pretty, you are bold and you are very powerful. You know, you have the power to do whatever you want to! You can get everything you need. Moreover, understand that there's no such thing as failure, it only indicates that the wind has changed its direction. Be fearless in exploring the uncharted territories. **Boost My Power** will make sure that happens right away!

It all started with a struggle just like yours. My mother was a fighter who always worked for the welfare of others. Moreover, she strived a lot to help people reach their goals. However, it all came at the cost of her own dreams. Her acts were seldom reciprocated and she never cared even when people hurt her. Unfortunately, she's got Alzheimer's now.

Boost My Power is a tribute to my mother, consequently, all her thoughts still reside in my blood. Her love, her nature, and her ambitions constantly flow through my veins. That has empowered me to do everything in my capacity for you. I want to help you all because she never had anyone to help her during desperate times.

Have you heard the phrase: what doesn't kill you makes you stronger. Understand that there are no wrong paths. Don't get yourself thrown off course. You are exceptional and you are definitely not weak. You deserve to stand tall amongst all odds. You learn as much from losses as from victories. Nobody has the right to judge you and nobody can define you.

You have to start trusting yourself. Contrary to what others say or what your own mind says, you are powerful enough to create your own destiny! We can together inspire our future generations because this is the need of the hour.

It doesn't matter who you are or what you do. The only thing that matters is that you deserve a healthy and stable life. We all agree that the journey of life is tough, but it's not as tough as we think if we are all in it together. Let me help you to boost your inner strength and I might derive one to fight my mother's illness too.

You have noticed how our problems, stress, and anxiety alleviate when there's someone to talk to. You are born special and you are bound to live as special. That's the gift of life! But remember this, we do that together. We are with you in every step and endeavor of yours! That's what **Boost My Power** is all about.
